

MUGS

If you are designing a mug with a picture on either side then you will need to keep your artwork inside an area 80mm by 80mm.

You will also need a gap of 40mm between the two bits of artwork.

On a mug you can use quite fine detail and even lettering, but remember to keep things big, bold and beautiful for the best effect.

If you want your artwork to wrap around your mug then you need to keep your artwork inside an area 80mm tall by 200mm wide.

TOTE BAGS

If you are designing a tote bag then you will need to keep your artwork inside an area 200mm by 200mm.

On a bag the detail is not so fine so it is best to keep to bold and colourful designs.

Enjoy and be creative!
